¹ Available on selected routes only.

² Select SAF via NDC: Contribution to reducing the climate impact of future flights through the use of sustainable aviation fuels (SAF) in amounts of 10 %, 20 % or 50 % of the estimated individual flight-related CO₂ emissions.

³ Contribution to reducing the climate impact of future flights through the use of sustainable aviation fuels (SAF) (equals 20 % of estimated individual flight-related CO₂ emissions) and through contributions to high-quality climate protection projects (equals 80 % of these CO₂ emissions).

⁴ If rebooked into a higher booking class, a fare surcharge may apply. If the itinerary is changed, the fare will be recalculated based on the new routing.

⁵ Only available at selected airports.

⁶ Rebooking free of charge is possible only on the day of departure during online check-in, or at a check-in machine or check-in counter at the airport. Applies to direct flights only. A change of route or airline is not possible.
